Research interests

How does the brain respond to linguistic variation? I use a combination of neural (EEG, fMRI, TMS) and behavioral (eye-tracking, response time/accuracy) methods to study the perception, representation, and processing of diverse speech signals. I am particularly interested in the effects of multilingual experience on the language system.

Education

The Pennsylvania State University — *University Park, Pennsylvania*
Ph.D., Psychology and Language Science, Specialization in Cognitive and Affective Neuroscience — *2018 - 2024*
- Advisor: Dr. Janet G. van Hell
- Dissertation: *Cross-language transfer in voice onset time: A window into perceptual adaptation in brain and behavior*

The Pennsylvania State University — *University Park, Pennsylvania*
M.S., Psychology — *2018 - 2020*
- Advisor: Dr. Janet G. van Hell
- Master's thesis: *We "might could" revisit syntactic processing: Studying dialectal variation with event-related potentials*

The University of Chicago — *Chicago, Illinois*
B.A., Psychology, Minor in Linguistics — *2011 - 2015*
- Advisor: Dr. Daniel Casasanto
- Honors thesis: *Does linguistic experience change mental representations of pitch?*

Honors and awards

Doctoral Dissertation Research Improvement Grant (Ling-DDRI) — *The Pennsylvania State University*
NSF grant for doctoral research on human language (SBE-2234907) — *Feb 2023 - Feb 2025*

Partnerships for International Research and Education Fellowship (PIRE) — *The Pennsylvania State University*
NSF grant for international language research (OISE-1545900) — *May 2022 - Jun 2022*

Adele Miccio Memorial Travel Award — *The Pennsylvania State University*
Travel award for professional development — *Dec 2021*

University Graduate Fellowship — *The Pennsylvania State University*
Competitive five-year fellowship for research doctoral students (100 awarded per year University-wide) — *Aug 2018 - Aug 2024*

University Scholar Award — *The University of Chicago*
Four-year merit scholarship for undergraduate students — *Sep 2011 - Jun 2015*

Academic employment

Language and Brain Lab *Storrs, Connecticut*

Postdoctoral researcher *Aug 2024 - present*

- Principal investigator: Dr. Emily B. Myers
- Research area: neurobiology of speech perception in young adults, older adults, and persons with aphasia
- Responsibilities: design, implement, and analyze research projects investigating laterality, gradiency, and talker specificity in speech perception with fMRI, TMS, and eye-tracking (NIH 5R01DC013064-09)

Bilingualism and Linguistic Diversity Lab *State College, Pennsylvania*

Graduate assistant *Aug 2018 - Aug 2024*

- Principal investigator: Dr. Janet G. van Hell
- Research area: neurocognitive mechanisms of auditory language comprehension in bidialectal and bilingual listeners
- Responsibilities: design, implement, and analyze research projects investigating cross-dialectal communication with EEG (NSF BCS-2041264 and BCS-2041081)

Experience and Cognition Lab *Chicago, Illinois*

Undergraduate research assistant *Sep 2013 - Jun 2015*

- Principal investigator: Dr. Daniel Casasanto
- Research area: embodied cognition and linguistic relativity
- Responsibilities: collect, code, and analyze behavioral data

Teaching experience

Psychology of language *The Pennsylvania State University*

Instructor *Jan 2024 - May 2024*

- Seminar course for upper-level psychology and linguistics undergraduates on psycholinguistics, with a focus on language development, bilingualism and second language acquisition, and linguistic diversity
- Presented bi-weekly lectures to highlight key concepts and clarify models and methods; mentored students on interpreting empirical research through reflection papers, journal article presentations and discussions, and individual meetings; fostered student curiosity and creativity through final project proposal and poster presentation

Psychology of language *The Pennsylvania State University*

Teaching assistant *Jan 2021 - May 2021*

- Instructor: Dr. Katharine Donnelly Adams
- Seminar course covering auditory speech perception, visual word recognition, language representation, sentence comprehension and production, and language acquisition across the lifespan
- Presented guest lecture on linguistic variation and the relation between production and comprehension

Basic research methods in psychology *The Pennsylvania State University*

Teaching assistant *Aug 2020 - Dec 2020*

- Instructor: Dr. Nicholas Pearson
- Introduction to experimental design, analysis, and presentation
- Led weekly laboratory section to reinforce lecture concepts

What makes us human? *The Pennsylvania State University*

Teaching assistant *Jan 2020 - May 2020*

- Instructor: Dr. Daniel Weiss
- Senior seminar in comparative psychology

Neurological bases of human behavior *The Pennsylvania State University*

Teaching assistant *Aug 2019 - Dec 2019*

- Instructor: Dr. Stephen Wilson
- Introduction to neuroscience theories and methods
- Presented guest lecture on auditory system and neuroanatomy of language production and comprehension

Academic service

- Ad hoc reviewing
  - *Brain and Language*
  - *Cognitive, Affective, and Behavioral Neuroscience*
  - *Journal of Experimental Psychology: Learning, Memory, and Cognition*
  - *Journal of Speech, Language, and Hearing Research*
  - *Perspectives*
  - *Psychonomic Bulletin & Review*
  - *Scientific Reports*
- Workshops and tutorials
  - Leader: R Markdown for Graduate Students (2020) for 20 students, Creating HTML Reports with R Markdown (2020) for 10 students
  - Assistant: R Bootcamp led by Dr. Rick Gilmore for 50+ students
- R Markdown for Psychology Graduate Students resource

Outreach

- Developing a Community Engagement Training Program for researchers in collaboration with the NIH T32 Cognitive Neuroscience of Communication - Connecticut (CNC-CT) program
- Volunteered with the Auditory Brain Research Lab to provide free hearing screenings in English and Spanish at the 4th Multicultural Latin Festival (July 2025, Willimantic, CT)
- Mentored underrepresented and first-generation students applying for graduate programs in cognitive psychology as part of the Mentoring Aspiring Graduate students and building an Inclusive Community (MAGIC) program at UConn (2024-2025)

Skills

- Natural languages: English, Spanish (B2/Intermediate)
- Programming languages: R, MATLAB, Python, SQL
- Experiment programming: E-Prime, PsychoPy, Gorilla, LabVanced, Pavlovia
- Acoustic analysis: Praat

Affiliations

- Center for Language Science (Penn State)
